IN OCTOBER IT STARTS THE POPULATION AND DWELLINGS CENSUS

Italy, day by day

**HAVE YOU RECEIVED A PERSONALISED LETTER FROM
ISTAT INVITING YOU TO PARTICIPATE TO THE CENSUS?**

It means that you are a part of a selected statistical sample which will have to **autonomously** answer to the census: you have to access to the website with the credentials given in the letter you received and you have to fill in the online form as soon as possible.

From the 2nd of October 2023, the family may fill in the online form or it may personally go to the **Centri Comunali di Rilevazione (CCR) see the list**, where the family will be helped by a municipal operator.

The families who will not fill in the online form or who will fill in the form in an unfinished way, will receive a reminder from ISTAT in the second half of October 2023.

It is possible to fill in the form until the **11th of December 2023**.

From the 12th of December 2023 families will still be able to answer, but only through these procedures:

- Telephonic interview with a municipal operator
- At home interview with a forensic officer, by appointment

- In person interview with a municipal operator at one of the Centri Comunali di Rilevazione (CCR).

The survey will close on the **22nd of December 2023**.

Taking part in the Census is a legal obligation.

HOW TO FILL IN THE ONLINE FORM

Once you have entered "fill in the form" portal click on "log in" (on the left side of the page).

You can access with the **user code** and **PIN*** (it is the fiscal code of the letter holder) or with the **SPID** or **CIE** credentials.

**In order to retrieve the PIN call the toll-free number 800.188.802 or contact one of the Centri Comunali di Rilevazione instituted by the Municipality.*

HAVE YOU FOUND IN YOUR DOORWAY ONE POSTER ANNOUNCING YOU THE CENSUS AND A FORENSIC OFFICER'S VISIT?

It means you're a part of a sample participating to the Census 2023 with the **support of a forensic officer**, it is called "field survey".

From the 17th of October until the 22nd of November 2023 you will be able to welcome the Municipality's forensic officer, who will give you the necessary information on the census.

The poster has information on the ongoing census, on the name of the forensic officer, on the day and the time of the forensic officer's visit and all the useful contacts to ask for information.

Furthermore, you will receive an information letter from ISTAT warning on the start of the survey, on its methods of implementation and with all the necessary contacts to have assistance and clarifications. In addition, you will receive a folding containing further useful information on the census and on its explorative purposes.

A forensic officer **with a badge** will contact the selected families and, **after collecting some personal information**, will explain the different methods of participation to the census and how to fill in the form.

The families will be able to choose between:

- An at home interview with the forensic officer, who will collect on a tablet all the required information on the form.
- An autonomous compilation from their own home of the form on the forensic officer's tablet (with the technical assistance of the forensic officer, if needed).
- To go in person to one of the Centri Comunali di Rilevazione, see the list, to:
 - Conduct the interview with a municipal operator who will collect on a PC or on a tablet all the required information on the form.
 - Autonomously fill in the form on a PC or on a tablet given by the Municipality itself, with the technical assistance of an operator, if needed.
