Andar per crêuze: scopriamo le piante di strada

Un approccio alla biodiversità urbana attraverso la scoperta delle piante di strada: schede in formato .pdf per la raccolta e classificazione di piante e la realizzazione di piccoli erbari auto-prodotti (scuole primarie e secondarie di I grado)

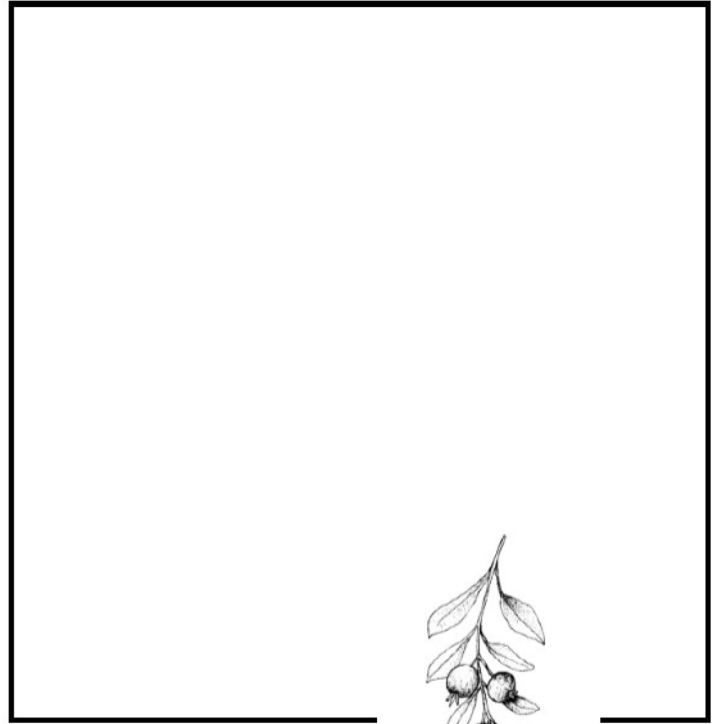

A cura di Mario Calbi e Liliana Borgati

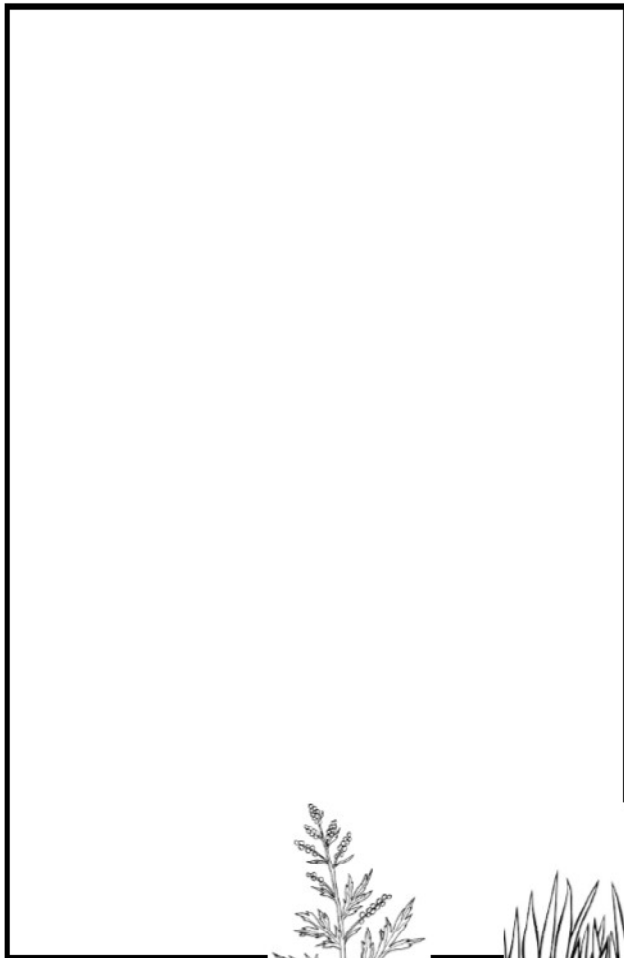

PIANTE

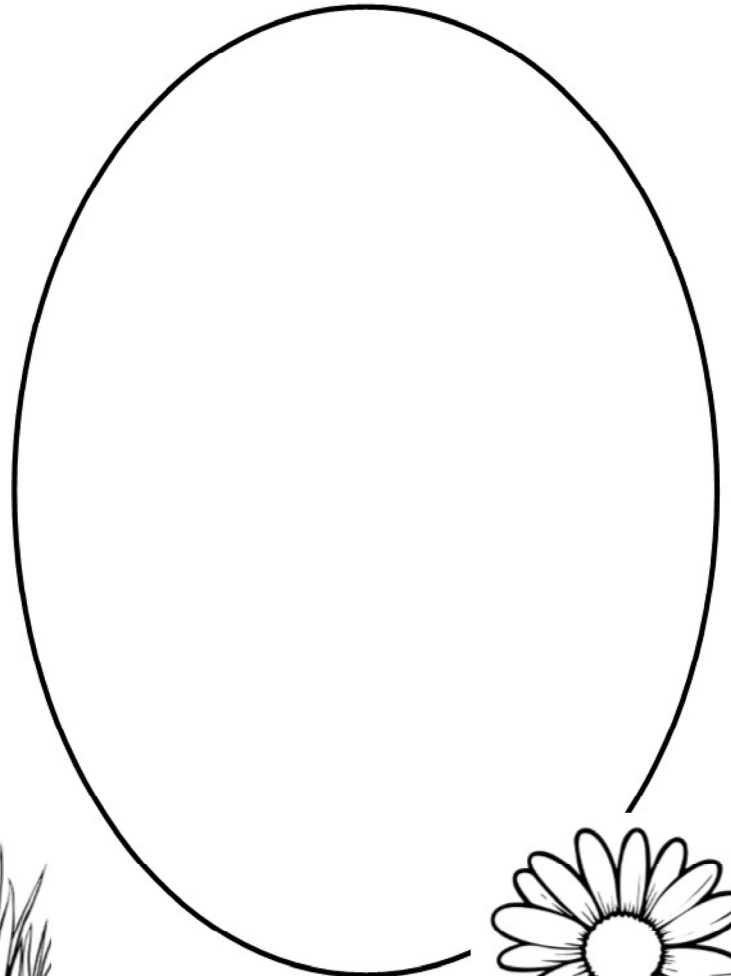

FOGLIA

FRUTTO

FOGLIA

FIORE

PASSEGGIATA BOTANICA:

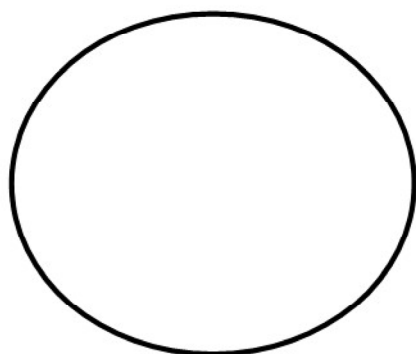

APPUNTI IN FORMA DI ERBARIO

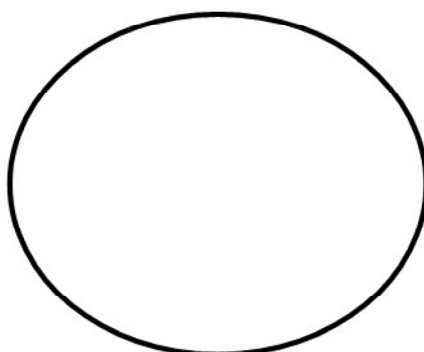

FIORI MASCHILI

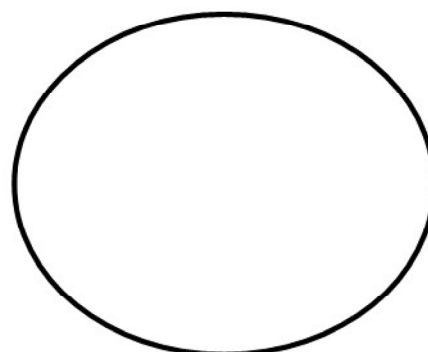

FIORI FEMMINILI

FELCI

GIMNOSPERME

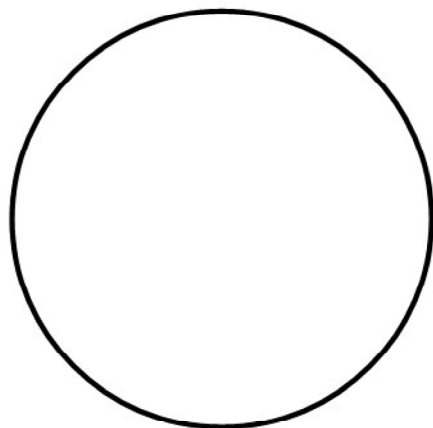

ANGIOSPERME

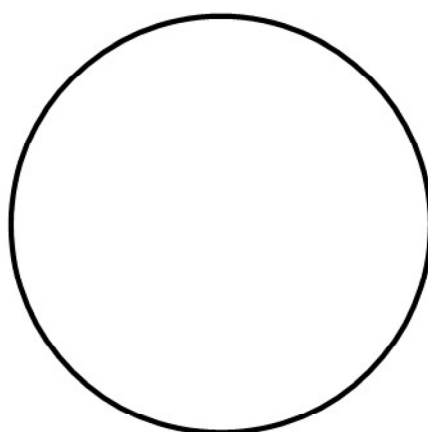

FIORI ATTINOMORFI

FIORI ZIGOMORFI

IMPOLLINAZIONE ENTOMOFILA

IMPOLLINAZIONE ANEMOFILA

I PROFUMI DELLE PIANTE MEDITERRANEE

ALATERO

MACERONE

ALLORO

RUTA

FINOCCHIETTO

ARTEMISIA

PIANTE (QUASI) IN CITTA'

IL VIBURNO, ARBUSTO FIORITO

STRACCIABRAGHE O SALSAPARIGLIA:
PIANTA RAMPICANTEPUNGENTE!

RUTA, Pianta odorosa

ALLORO, Pianta che cura

MORELLA, PiantaVELENOSA!

MACERONE, Pianta che si mangia

PASSEGGIATA BOTANICA:

APPUNTI IN FORMA DI ERBARIO

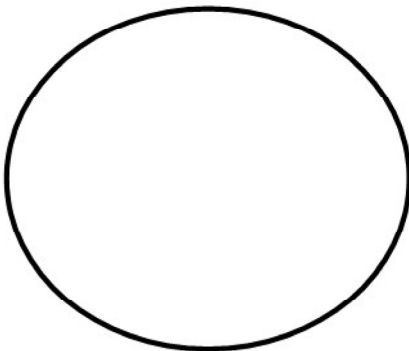

FIORI MASCHILI

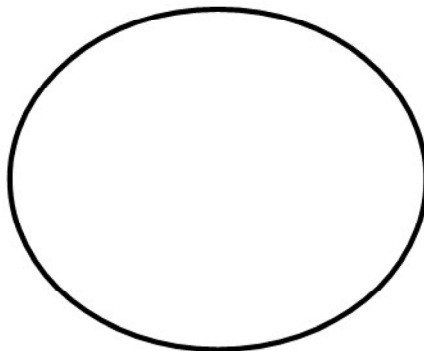

FIORI FEMMINILI

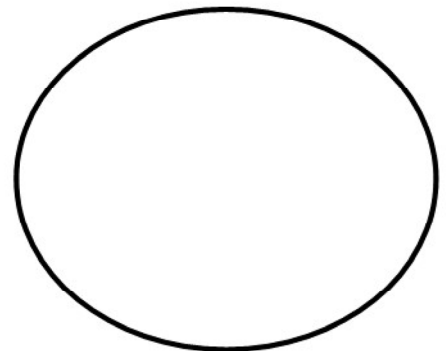

FIORI ERMAFRODITI

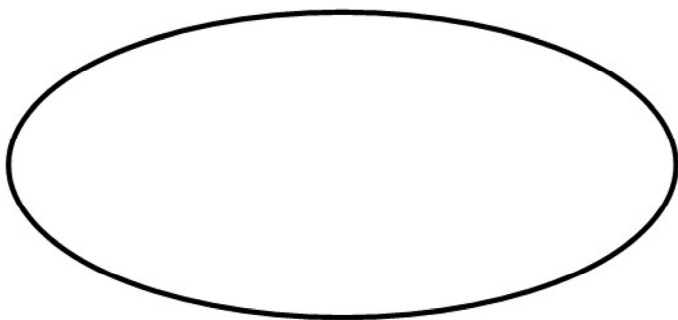

ERBE

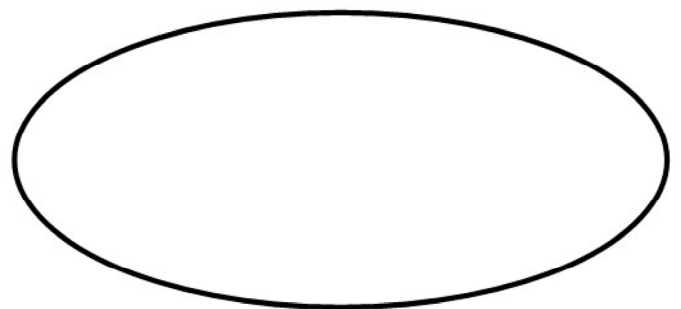

CESPUGLI

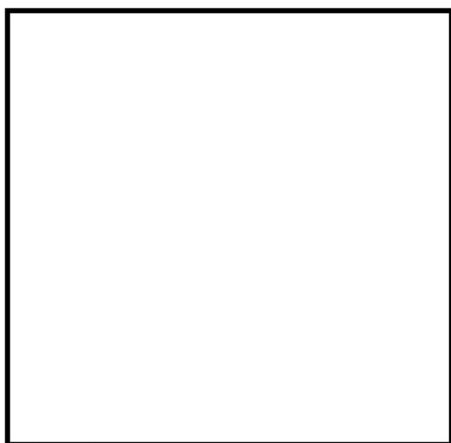

ALBERI

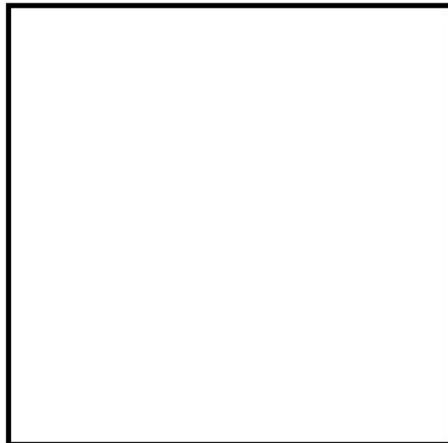

IMPOLLINAZIONE ENTOMOFILA

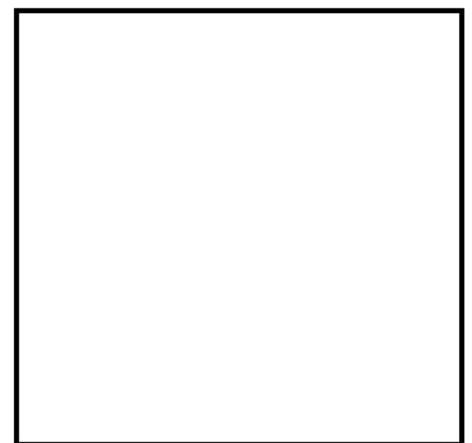

IMPOLLINAZIONE ANEMOFILA

PIANTE CHE SI MANGIANO

PIANTE CHE CURANO

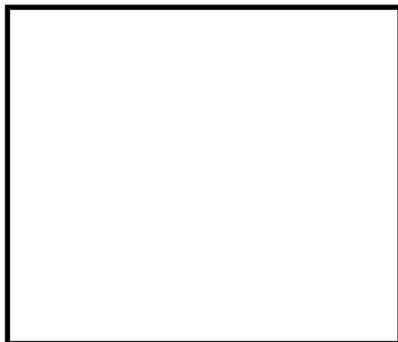

PIANTE VELENOSE

PASSEGGIATA BOTANICA:
